## **The Devil's Riches: A Modern History of Greed**

At present, the streetcars are still driven by direct current motors, while railway engines are driven, since several years only, by induction motors supplied not with constant, but with variable frequency coming from semi-conductor power converters. And every graduate of this school, every thoughtful citizen who despairs of war and wishes to bring peace, should begin by looking inward--by examining his own attitude toward the possibilities of peace, toward the Soviet Union, toward the course of the cold war and toward freedom

and peace here at home.
